Welcome To DRS Care

We are DRS Care. A warm, friendly, and creative care provider to incredible adults that see the world differently. Established over the last 34 years. We continue to evolve the way to communicate and interact with the wonderfully bright people that come to us. If you are looking to find support for someone with a mental disorder or learning disability… We would love to hear from you.

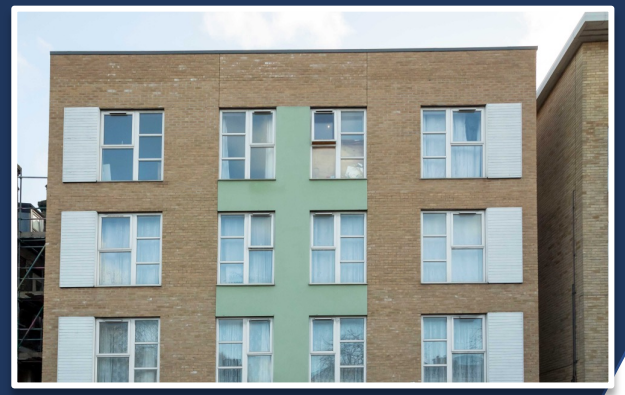
DRS CARE
from possibility to actuality

Our Story

DRS Care has developed our own knowledge to ensure everyone gets the support they need, regardless of their situation or limitations. We provide high-quality community accommodation and support for adults with:

•Mental health disorders
•Mild and moderate learning disabilities
•Challenging behaviours
•Social, psychological, and emotional complexity

Our goal is to help people live as independently as possible, whether that be at one of our care homes, or in supported living. We are very proud to have been able to “step down” so many of our service users from residential care, into their own homes. For the people that come to us, this is a monumental achievement.



DRS CARE
from possibility to actuality

Residential Care

Our residential care homes include:

- individual rooms with en-suite facilities
- support based on individual needs and circumstances
- safe therapeutic environments that cater for a range of needs
- the option for respite care
- located in the heart of local communities
- encouragement to integrate into the local community at a pace that suits
- provision of opportunities for our service users to increase their social interaction
- we work on building self-confidence, which in turn supports a higher level of independence
- we work on Positive Behavioural Management to ensure our service users are better prepared for social integration
- access to private transport

Supported Living

Our supported living accommodation benefits from the following:

- the ability to feel independent with the security of nearby support when needed
- a support plan built around the individual needs of each person
- 24-hour support if required
- the opportunity to build confidence with day-to-day tasks, developing future independence
- a safe ‘middle ground’ between residential care and living alone independently

Semi Independent

For so many of our service users, semi-independent living is the ultimate goal.

Here are some of the benefits:

- your very own 1 bedroom self contained flat
- your own secure tenancy for ultimate independence
- medication check process to monitor side effects
- mental health support and monitoring
- support developing life skills
- help with financial management and budgeting
- shopping and cooking support
- behavioural management and development of social skills
- individual support package based on specific needs

Contact Us

At DRS Care, we want to make it as easy as possible for you to get in touch. If you feel that someone you love would benefit from one of our services, we would love to hear from you.
